3 June 1949

1. The RERIK (M 55/0 51) airfield was not occupied by Soviet Air Force units on 3 June 1949. The entire landing field was being plowed. Further demolitions were done at the underground installations and the concrete foundations on the western section of the WUSTROW peninsula between 1 and 3 June 1949. Clearing work at the demolished hangars was still going on.

2. Comment:

The information on the condition of the RERIK airfield confirms information of 8 May 1949. No indications of an intended reconstruction of the airfield were observed.
